The World News Media Congress is the most important annual gathering of news media leaders. The 74th edition will address the business, journalism, policy and freedom issues faced by the industry. A gala dinner and a cocktail reception offer outstanding networking opportunities for delegates, speakers and partnering technology entrepreneurs. WNMC23 will run 3 concurrent tracks as follows:

**World Media Leaders Summit**

A stream for publishers, owners, CEOs and all those invested in building sustainable news organisations.

**World Editors Summit**

For chief-editors, editorial managers and journalists who put journalism and its freedoms first when leading their newsrooms through challenging times.

**Solution Track**

The solutions track will provide participants with insights into how supplier companies are redefining and supporting the publishing industry.

MEDIA LEADERS SUMMIT

WAN-IFRAs Media Leaders Summits address the biggest questions facing change-makers and top executives at news publishers around the world.

These high-level strategic conferences reflect on the future of news and media as well as innovative business models that will transform the media and publishing landscape.

The goal of the Media Leaders Summits is to provide insights, trends and best practices that allow decision makers to re-evaluate business strategies, return to stability and ultimately, achieve long-term sustainability for their news organisations.

The Digital Media Conferences will continue sharing digital growth strategies as well as our traditional share of winning formulas and experimentations from across the world. These conferences focus on digital revenues by offering ideas on digital trends, technology and revenue strategies with a special focus on advertising and subscriptions.

In 2023, a new parallel track will offer insights into how supplier companies are redefining and supporting the publishing industry. You can expect insightful case studies from technology companies and/or showcases of content strategy-supporting tools.

We will highlight the value technology offers newsrooms by enabling them to automate and innovate.

The Forum 2023 is dedicated to the optimization of conversion processes from free to paid, the development of the product offer and the prospects of the digital market in a "privacy-by-design" world.

Based on international business cases, the program explores the latest developments in digital content monetization, product and content strategies, and engagement and reader acquisition tactics.

Simultaneous English-French translation is offered to you to take full advantage of exchanges with our panel of international professionals and colleagues.
